

CERTIFICATE in Personal Development

30-hour programme (delivered over 10 weeks)

What lies behind us and what lies before us are tiny matters
compared to what lies within us.

Ralph Waldo Emerson (*American philosopher and poet, 1803-1882*)

This Personal Development Course is aimed at participants who are seeking to understand themselves more fully. Perhaps you are interested in a professional training, or you want to become more fully the human being that you are and share your unique gifts with others either personally or/and professionally?

ICPPD believes that Personal Development is a lifelong process. It's a way for people to assess their skills and qualities, consider their aims in life and set goals in order to realise and maximise their potential. Personal Development is the conscious pursuit of personal growth by expanding self-awareness and knowledge and improving personal skills.

Those skills include your mind, your body, your spirit as well as your level of success in all areas of life, however you may define that. The ultimate goal of Personal Development is to be a self-realised human being. That means living consciously at your full potential and reaching real happiness in your life. ICPPD supports a holistic ethos in all its programmes.

Join a group of like-minded people to explore and learn. Described as “*a life changing experience*” by participants, this course is facilitated by experienced counsellors and psychotherapists.

At ICPPD personal development, self-awareness and creative expression is seen as key components of any training and education programme.
